After the winner result you will see a number for example Winner (1) \$5.30 the (1) represents the winner came from the first tip in the sequence. So (2) will represent tip 2, (3) tip 3 and (4) tip 4. This information is given to help people clearly see which horse in the tips sequence actually won and it is then followed by the exacta, trifecta, first 4 and quadrella results information if we have tipped it correctly within the selections given.

Note: All prices shown on the site are from the QLD TAB (Tattsbet) or Ubet as they are now known. If you like Exacta's or Quinella's overall they seem to pay a lot better than others do, but for other bet types eg. Trifecta, Quadrella etc you may be best off looking elsewhere. Either way give them a search and see if they are good and work for you.

After the winner result you will see a number for example Winner (1) \$5.30 the (1) represents the winner came from the first tip in the sequence. So (2) will represent tip 2, (3) tip 3 and (4) tip 4. This information is given to help people clearly see which horse in the tips sequence actually won and it is also very helpful in tracking winning betting patterns.

The Live Results on the website are very important as you can constantly see at a quick glance how things are going. For example if Exotics are doing well at a certain venue then you may like to play the Exotics there. For example at a certain venue if only Win Bets are doing well then you may like to try that approach, if the Top Selections are doing well at a certain venue then you may like to back the next Top Selection. If the 3rd and 4th selections are only doing well at a certain venue then you may like to even try that approach. And also if a certain venue is not doing well at all results wise it may be wise to avoid betting at that venue altogether. Just use your logic when it comes to this information as PATTERNS are very IMPORTANT!

Results:

Please note as of the 24th of May 2015 you will see a change in how the live results are given on the website. After the winner result you will see a number for example Winner (1) \$5.30 the (1) represents the winner came from the first tip in the sequence. So (2) will represent tip 2, (3) tip 3 and (4) tip 4. This information is given to help people clearly see which horse in the tips sequence actually won and it is also very helpful in tracking winning betting patterns.

The Live Results on the website are very important as you can constantly see at a quick glance how things are going. For example if Exotics are doing well at a certain venue then you may like to play the Exotics there. For example at a certain venue if only Win Bets are doing well then you may like to try that approach, if the Top Selections are doing well at a certain venue then you may like to back the next Top Selection. If the 3rd and 4th selections are only doing well at a certain venue then you may like to even try that approach. And also if a certain venue is not doing well at all results wise it may be wise to avoid betting at that venue altogether. Just use your logic when it comes to this information as PATTERNS are very IMPORTANT!

Results:

Please note as of the 24th of May 2015 you will see a change in how the live results are given on the website. After the winner result you will see a number for example Winner (1) \$5.30 the (1) represents the winner came from the first tip in the sequence. So (2) will represent tip 2, (3) tip 3 and (4) tip 4. This information is given to help people clearly see which horse in the tips sequence actually won and it is also very helpful in tracking winning betting patterns.

The Live Results on the website are very important as you can constantly see at a quick glance how things are going. For example if Exotics are doing well at a certain venue then you may like to play the Exotics there. For example at a certain venue if only Win Bets are doing well then you may like to try that approach, if the Top Selections are doing well at a certain venue then you may like to back the next Top Selection. If the 3rd and 4th selections are only doing well at a certain venue then you may like to even try that approach. And also if a certain venue is not doing well at all results wise it may be wise to avoid betting at that venue altogether. Just use your logic when it comes to this information as PATTERNS are very IMPORTANT!

Results:

Please note as of the 24th of May 2015 you will see a change in how the live results are given on the website. After the winner result you will see a number for example Winner (1) \$5.30 the (1) represents the winner came from the first tip in the sequence. So (2) will represent tip 2, (3) tip 3 and (4) tip 4. This information is given to help people clearly see which horse in the tips sequence actually won and it is also very helpful in tracking winning betting patterns.

The Live Results on the website are very important as you can constantly see at a quick glance how things are going. For example if Exotics are doing well at a certain venue then you may like to play the Exotics there. For example at a certain venue if only Win Bets are doing well then you may like to try that approach, if the Top Selections are doing well at a certain venue then you may like to back the next Top Selection. If the 3rd and 4th selections are only doing well at a certain venue then you may like to even try that approach. And also if a certain venue is not doing well at all results wise it may be wise to avoid betting at that venue altogether. Just use your logic when it comes to this information as PATTERNS are very IMPORTANT!

The results are in...

So let's have a look at the numbers with 47 races covered. For the Exotics the Exacta strike rate was sitting at 34% with the best paying out at \$55.20 with the best straight Trifecta paying out at \$121.40 and the best straight First 4 paid out at \$1036.80. For Win Bets the best priced Top Selection winner was at \$7.40 with the strike rate for the Top Selection sitting at 28% and the strike rate for the Top 2 Selections was sitting at 45% of all races run.

Results:

Please note as of the 24th of May 2015 you will see a change in how the live results are given on the website. After the winner result you will see a number for example Winner (1) \$5.30 the (1) represents the winner came from the first tip in the sequence. So (2) will represent tip 2, (3) tip 3 and (4) tip 4. This information is given to help people clearly see which horse in the tips sequence actually won and it is also very helpful in tracking winning betting patterns.

The Live Results on the website are very important as you can constantly see at a quick glance how things are going. For example if Exotics are doing well at a certain venue then you may like to play the Exotics there. For example at a certain venue if only Win Bets are doing well then you may like to try that approach, if the Top Selections are doing well at a certain venue then you may like to back the next Top Selection. If the 3rd and 4th selections are only doing well at a certain venue then you may like to even try that approach. And also if a certain venue is not doing well at all results wise it may be wise to avoid betting at that venue altogether. Just use your logic when it comes to this information as PATTERNS are very IMPORTANT!

Wednesdays January 6th 2016 Horse Racing Tips:

The results are in...

And it was an excellent Wednesday so lets have a look at the results with 40 races covered today on the site. For Exotics there were 22 Exacta's in total which is a strike rate of 55% of all races run with the best paying out at \$94.30 with the best tipped straight Trifecta paying out at \$397.50 and the best tipped straight First 4 paid out at \$1106.80. For Win Bets the best priced winner was at \$9.90 with the strike rate for the Top Selection sitting at 35% with the strike rate for the Top 2 Selections sitting at 45%

Results:

Please note as of the 24th of May 2015 you will see a change in how the live results are given on the website. After the winner result you will see a number for example Winner (1) \$5.30 the (1) represents the winner came from the first tip in the sequence. So (2) will represent tip 2, (3) tip 3 and (4) tip 4. This information is given to help people clearly see which horse in the tips sequence actually won and it is also very helpful in tracking winning betting patterns.

The Live Results on the website are very important as you can constantly see at a quick glance how things are going. For example if Exotics are doing well at a certain venue then you may like to play the Exotics there. For example at a certain venue if only Win Bets are doing well then you may like to try that approach, if the Top Selections are doing well at a certain venue then you may like to back the next Top Selection. If the 3rd and 4th selections are only doing well at a certain venue then you may like to even try that approach. And also if a certain venue is not doing well at all results wise it may be wise to avoid betting at that venue altogether. Just use your logic when it comes to this information as PATTERNS are very IMPORTANT!
